~~AKAR~~ Soothe EcoSystem

(<https://primerealestatemagazine.com/>)

~~(<https://akarskin.com/collections/bundles-gifts/products/soothe-regimen-1>)~~

AKAR (<https://akarskin.com/>) builds its formulations around globally sourced plant actives, shaped by founder Kate's early discovery of seaberry in Tibet and her continued search for high-potency botanicals. The Soothe EcoSystem (<https://akarskin.com/collections/bundles-gifts/products/soothe-regimen-1>) brings together a full collection of cleansers, treatments, oils, and creams, each centered on concentrated plant extracts and the brand's PhytoActive+ compound.

The routine moves through multiple textures, cleansing syrup, milk, essence, mask, oil, and moisturizer, creating an immersive experience. Ingredients are extracted through CO₂ and cold-press methods to preserve their potency, with each step designed to layer and build.

For Mother's Day, this becomes a deeper ritual. A set she can spend time with, exploring each step and experiencing a plant-based approach to skincare that feels new, intentional, and grounded in formulation.

ALBION - EXCIA Double Key Advance Serum

(<https://primerealestatemagazine.com/>)

(<https://www.albiongarden.com/pages/our-story-albion-corporate>)

Albion Garden (<https://www.albiongarden.com/products/excia-double-key-advance-serum>) brings decades of Japanese skincare expertise into a single, focused step with the EXCIA Double Key Advance Serum (<https://www.albiongarden.com/products/excia-double-key-advance-serum>). Developed in Tokyo and backed by extensive research, the formula uses a dual-phase system with 21 selected ingredients, including antioxidants and enzyme activators, designed to support skin that is showing more advanced signs of aging.

The texture is rich, delivering hydration while improving the look of firmness and overall smoothness. It reflects ALBION's milk-first philosophy, where fewer products are used with greater precision.

For Mother's Day, this is the kind of serum that replaces multiple steps. One product that handles hydration, texture, and overall finish in a single application, making it a strong addition to a more refined routine.

blinc = Tubing™ Mascara & Eye Essentials (<https://primerealestatemagazine.com/>) **(<https://blincinc.com/pages/beauty-bundle>)**

[blinc \(https://blincinc.com/pages/beauty-bundle\)](https://blincinc.com/pages/beauty-bundle) built its reputation on solving one of the most common frustrations in beauty, makeup that doesn't hold up through the day. Its [Tubing™ technology \(https://blincinc.com/pages/beauty-bundle\)](https://blincinc.com/pages/beauty-bundle) takes a different approach, forming lightweight "tubes" around each lash instead of coating them, creating a finish that stays in place without smudging or flaking, yet removes easily with just water.

Made in the USA and developed with a focus on clean, vegan formulations, the line extends beyond mascara into eyeliners, primers, and brow products designed to perform without constant touch-ups.

For Mother's Day, this is a simple but noticeable upgrade. Something she may not have tried before, offering a more reliable, low-maintenance approach to everyday makeup that fits into her routine
