PRACTICAL AND CLINICAL ISSUES FOR TODAY'S DERMATOLOGIST

Mentoring Mostly Women

The Women's Dermatologic Society offers a mentorship program designed to foster professional growth. However, for many, most important, are the relationships the society nurtures.

ALMA LASERS LAUNCHES SOPRANO™ "PAIN-FREE" LASER HAIR REMOVAL DEVICE AND CONTRIBUTES TO NATIONAL BREAST CANCER FOUNDATION

With the launch of its new Black Soprano™ Laser Hair Removal Device, Alma Lasers has committed to making a financial contribution to the National Breast Cancer Foundation

with the sale of each Soprano™ through the end of 2010.

According to a company-issued press release, the new laser represents "the latest innovation in virtually painless laser hair removal," combining advanced In-Motion technology with intense power and an "intelligent, intuitive, interface." The release further states that the device "delivers fast, virtually painless treat-

ments with safe, consistent, and reliable clinical results" to those with all skin types, including tanned skin and all pigmented hair.

GLYSTONE OFFERS ULTRA HEEL AND ELBOW CREAM TRAPPER KIT

Glystone bundles a natural pumice stone and a pair of 100% cotton socks with its Ultra Heel and Elbow Cream, formulated with 29.3% free acid value glycolic acid. According to the company, the high concentration of glycolic acid acts quickly to exfoliate dry, coarse and dead skin, especially on traditional problem areas like elbows and heels.

On the feet, application of the cream is followed by wearing socks overnight to promote absorption and penetration of the product. On elbows, the cream is

used as "a treatment masque," which is left on for 10 to 15 minutes, and then rinsed off with warm water.

BY NEVES INTRODUCES FACE FIX MASK

By Neves has introduced a scrub-mask made with powdered organic herbs and clay that, according to the company, is a "dynamic soothing, smoothing exfoliant and regenerative mask for all skin types, and is a refreshing, pure alternative to synthetic scrubs."

Face Fix contains organic herb powders including white willow bark, comfrey root, licorice root, rose petals, and neem leaf. "Together with mineral rich cosmetic clay these powerful herbs soothe, calm, tone, refine and tighten the skin. Because this is a powder formula, it

does not require any emulsifiers, surfactants or preservatives," the release states.

DR. LEWIN BY KINERASE: AFFORDABLE CLINICAL STRENGTH PRODUCT LINE

Kinerase maker Valeant Pharmaceuticals International is offering a 10-product skin care line with cleansers, moisturizers and daily treatments containing Kinerase's patented kinetin at clinical strength levels of 0.1% to "visibly extend skin's youth by improving cell health," according to company-generated product information.

In addition to kinetin, the company specifies the ingredients these products

are making available to the mass market for the first time: "SNAP-8 Peptide, non-peptides that visibly relax the appearance of wrinkles caused by repetitive facial expressions; Oculif, oat kernel sugars that create an invisible lifting film to tighten and minimize the look of wrinkles; and Eyeweryl, a tetrapeptide that drains and decongests puffiness and safeguards against future eye bags."

NEW PHENOLIC ANTIOXIDANT SKIN CARE SYSTEM FOR PHOTOAGING

According to company-generated product information, Replere is a natural, phenolic antioxidant skin care line, with clinically proven anti-aging results.

A 12-week, double-blinded, randomized, controlled clinical trial performed to evaluate the efficacy and tolerance of Replere included these among its most often reported subject responses: 100% reported that their skin felt softer and showed improvement in clarity, firmness and tactile roughness 96% reported the products were mild and did not irritate their skin 87% of subjects reported their brightness, glow or radiance had improved and 83% reported a more even skin tone and that wrinkles in the eye area improved.

Products in the line include the following items: Deep-Clean & Clarify Face Wash, Pore-Minimize & Mattify Skin Tonic, Protect & Rejuvenate Day Lotion, Repair & Replenish Night Crème, and Lighten & Firm Eye Serum.

SUPER TRYPEPTIDE ENHANCER BY ZENESON WITH PENTYLENE GLYCOL

Zeneston Skincare of Treston, Ind. has introduced a mild serum that, according to the company-issued press release, "softens and refreshes skin while minimizing the appearance of wrinkles." The key ingredient, pentylene glycol, is said to provide intensive hydration to restore moisture and diminish fine lines. In addition, the company claims that the product's naturally derived fragrance and essential oils provide aromatherapy.
